If you are involved in project management and aspire to become a PMP, then you must be looking for training program for yourself

COURSE CONTENTS

- Initiating the Project
- Planning the Project
- Executing the Project
- Monitoring and Controlling the Project:
- Closing the Project
- Professional and Social Responsibility
- PMBOK® Guide (Project Management Body of Knowledge),
- PMP certification requirements and exam content.

WHO SHOULD ATTEND

At its core, this training course is for any professional who wants to take a big step forward in their project management career. Since, on average, certified project managers are paid 20-30% more than uncertified employees, it shouldn't be difficult to find the motivation to attain the PMP certification. This online PMP Training Program is ideal for almost any project management professional such as Team leaders, Assistant project managers, Team managers, Project executive & Project engineers

OBJECTIVE

Through our online learning PMP preparation course, you'll get practical knowledge and a confident mindset to achieve your PMP certification on the first attempt. The 35 contact hours PMP Training Program includes:

Note: * Along with this course you will also need the PMBOK Guide, PMP exam reference books, and a simulator to practice questions to prepare for the PMP exam. These are not a part of this training course.
