

BEST PRACTICES STUDY MISSION

November 2023

Competitive &
Sustainable India @

- Excellence Imperatives

CII IQ is organising a series of plant visits during November 2023, coinciding with the 31st edition of the flagship national event, the 'CII Excellence Summit' on 2-3 Dec 2023 at Bengaluru.

These visits provides a practical and hands-on learning experience, allowing participants to observe and understand **worldclass manufacturing processes, technologies, and quality practices**. Utilize this unique opportunity to **view, experience and acquire** valuable knowledge and skills related to **manufacturing processes, quality control, safety measures, and industry best practices**. Exposure to different manufacturing facilities can inspire innovation and creativity by introducing new technologies, processes, and best practices that can be adapted and applied to your industry.

HIGHLIGHTS

Observe first-hand Quality Methodologies implemented by World Class Companies

Observe the Management Philosophies that result into success & Continuous Improvements

Learn Competitive Methodologies of Successful Companies

Delve into the Philosophy, Tools and Systems of TPM, TQM & applied Production Systems

Visit state of the art Manufacturing Production Systems

WHO SHOULD ATTEND?
